López Responds To Indictments in US, Israel

Indictment includes charges surrounding threats to DE Senator

The following is a statement from Delaware State Senator Ernesto B. López (R-6th District) in response to indictments filed in recent days in Israel and Orlando, Florida. Among the charges against Michael Kadar are those relating to threats against Senator López. For details on the indictment, we recommend contacting the US Department of Justice.

Statement from Delaware State Senator Ernesto B. López:

Over a year ago, I released a statement in support of Delaware children and teachers condemning repeated bomb threats being made to our local schools.

Today, I would like to thank all of the law enforcement agencies who participated in the investigation which has led to the successful apprehension of a prime suspect in Israel. Due to the ongoing nature of the investigation, I will have no further comments and respectfully request that members of my family be given privacy, and that all future questions be directed to the Federal Bureau of Investigation Field Office in Baltimore, Maryland.

With that said, on behalf of my children and their mother, we would like to thank all of our family, colleagues and friends who stood in support alongside us. We specifically thank the following law enforcement agencies who provided protection, care and counsel during this difficult time:

- ***Dewey Beach Police Department***
- ***Rehoboth Beach Police Department***
- ***Lewes Police Department***
- ***Milton Police Department***
- ***Ocean View Police Department***
- ***University of Delaware Police Department***
- ***Delaware Capitol Police***
- ***Delaware State Police***
- ***Federal Bureau Of Investigation, Baltimore Field Office***

Very truly yours,

Dr. Ernesto B. López
Delaware State Senate, District 6
